1. INTRODUCTION

The University Hospitals of North Midlands NHS Trust, as a major employer, recognises that Recruitment and Selection of quality staff is central to the achievement of its business goals and objectives.

The Trust's Recruitment and Selection Policy (hereafter known as the/this Policy) has been developed taking into account current legislation, National Compliance (i.e. NHSLA, CQC), guidelines and existing Trust Policy including the Trust's Equality and Diversity Policy and NHS Employment Check Standards issued by NHS Employers in September 2012.

The 6 standard checks that must be completed for all recruitment external, internal and PFI contracts are:

1. Verification of ID checks
2. Right to work checks
3. Professional registration and qualification checks
4. Employment history and reference checks
5. Criminal records and barring checks
6. Work Health Assessment

The Trust has followed recommendations from the Department of Health in utilising the E-Recruitment system provided by NHS Employers (NHS Jobs) as a means of facilitating the recruitment process. It is recognised that some applicants will not have access to E-Recruitment or sufficient IT skills. Provision for manual applications and assisted electronic applications has been taken into account.

The Recruitment Procedure is outlined in Appendix 2 onwards of this Policy. Further information and guidance can be obtained via the Human Resources section of the Trust's Intranet.

5. REDEPLOYMENT (ALSO KNOWN AS ALTERNATIVE EMPLOYMENT)

Employees require redeployment / alternative employment for a variety of reasons e.g. as a result of organisational change (under Policy HR04), for health / sickness absence reasons (under Policy HR14), because they are in receipt of long term protection of pay monies (under policy HR16) etc. The Trust believes that an integral feature of any successful organisation is the ability to be able to effectively explore options to secure alternative employment for employees as and when necessary.

In summary, the Trust's Redeployment process covers the following four stages:-

Stage 1 - Placing an employee onto the Redeployment Register (the Register) – in accordance with the relevant HR policy.

Stage 2 - The matching process (inclusive of a four week trial, if appropriate i.e. only those staff who are at risk of redundancy are entitled to a four week work trial if they are matched to and offered an available suitable alternative post)

Stage 3 - The monitoring stage (particularly in regard to employees on protection of pay)

Stage 4 - Taking an employee off the Register

- Employees requiring redeployment/alternative employment, under relevant HR policies, should be carefully considered before a post is advertised in open competition.
- The UHNM Redeployment Register, and the STP's 'Together We're Better' Redeployment Service database, must be checked **before** a post can proceed to advert.
- If an employee on the Register is matched to a suitable available vacancy and at interview is offered the post, then the Recruitment Team will support the hiring manager with next steps to complete the redeployment. In this scenario, the vacancy will therefore not proceed to advert.
- If there is no suitable employee on either the UHNM Register or the STP's Redeployment Service database, then the post can proceed to advert in open competition.

Hiring Managers and the HR Directorate staff have a responsibility to support the Trust's Redeployment processes and employees who are placed on the Register have an obligation to actively engage in the processes.

Please refer to the Organisational Change Policy (HR04) and further information/guidance is available from HR in respect to redeployment processes.

PROCEDURE FOR CONDUCTING ONLINE RIGHT TO WORK

From 28 January 2019, an online right to work check will provide a statutory excuse against a civil penalty in the event of illegal working involving the subject of the right to work check.

An online check can be done using the online service, entitled 'View a job applicant's right to work details' on gov.uk.

Currently, the online checking service supports checks in respect of those who hold:

- a biometric residence permit;
- a biometric residence card; or
- Status issued under the EU Settlement Scheme (alternatively, these individuals continue to be able to demonstrate their right to work by presenting their EU passport or ID card until the end of the planned implementation period).

How does the service work?

The service works on the basis of the individual first viewing their own Home Office right to work record. They may then share this information with the employer, by providing a 'share code', which, when entered with the individual's date of birth, enables access to the information required.

The share code will be valid for 30 days, after which a new code will be required in order to conduct an online check.

The employer part of the service is called 'View a job applicant's right to work details' and is available on gov.uk. The service must be accessed using the employer part of the service ('View a job applicant's right to work details') in order to obtain a statutory excuse.

It is not sufficient to only view the information provided by the prospective employee, when viewing their profile using the migrant part of the Home Office online right to work checking service. The Home Office has an audit record of online checks conducted by employers using the service. Employers will not establish a statutory excuse by viewing the migrant part of the service. The information must be retained.

There are 3 basic steps to conducting an online right to work check.

1. **Use** the Home Officer online right to work checking service on Gov.uk
2. **Check** that any photographs on the online right to work check is of the individual presenting themselves for work
3. **Retain** a clear copy of the response provided by the online right to work check.

CONDITIONAL OFFER OF EMPLOYMENT

Once an offer of employment has been verbally made to the candidate by the Hiring Manager, this should be followed up by a letter setting out the conditions laid out in the offer of employment. This will be raised by the Recruitment Team/Medical Staffing Team and authorised by the Hiring Manager.

Offers of employment are always conditional until the appropriate checks have been made and satisfactory clearance has been received.

Master conditional offer letters are held within the Recruitment/Medical Staffing Team online file.

CONFIRMATION OFFER OF EMPLOYMENT

Once all relevant clearances have been received the Recruitment Team will inform the Hiring Manager and send an offer letter and contract to the candidate and copy in the hiring manager for information.

Contracts should not be issued without the necessary pre-employment checks being completed

NB. For Medical Posts the confirmation offer letter and contract will be issued by the Medical Staffing Team

Master confirmation offer letter and contract are held within the Recruitment Team/Medical Staffing Team

Where a candidate fails to meet the conditions applicable to the offer of employment, further discussion should take place with the candidate regarding the reasons for the failure to meet the conditions. Where appropriate, managers should cross reference to relevant Trust policies e.g. Trust Policy for Disclosure of Criminal Background, Policy for Professional Registration and should seek advice from the HR Department prior to making a final decision.

It is the responsibility of the Hiring Manager after seeking advice from the HR Team, to inform the candidate of the decision to withdraw the post verbally and in writing.

COMMENCING EMPLOYMENT PRIOR TO COMPLETION OF PRE-EMPLOYMENT CHECKS

Failure to carry out pre-appointment checks for employees, volunteers or students can put the safety and the lives of patients at risk.

The Board acknowledges that operational pressures sometimes result in employees commencing in post prior to checks such as DBS, references, Work health assessments and Registration Verification being completed.

In balancing the risk between commencement in post and service pressures the following guidance should be followed:-

- It is illegal for anyone working with children who are required to be checked under the Protection of Children Act, to be commenced in post until all checks are complete even if in a supervisory situation. It is illegal to commence employment without a Children's Barred List check for this category of staff.
- No-one should commence in post without full checks being completed if there are no major consequences of waiting for checks to be complete.
- If there are major consequences of not commencing in post, approval should be gained in writing (email) from the Chief Nurse, Medical Director or Chief Operating Officer.
- It is the Hiring Managers responsibility to ensure that all necessary checks are complete in accordance with the Trust's Recruitment Policy. Please contact your HR Manager with any questions regarding requirement for DBS checks
- If commencing an employee prior to receiving a DBS check, employment references and Occupational Health checks must be received before commencing employment.

INTERNAL APPOINTMENTS

The process for recruiting internally mirrors the process for 'online' appointments. If the post is only applicable for internal applicants this should be clearly stated on the advert.

If the successful applicant is an existing employee with UHNM then the recruitment officer calls the current and hiring manager and asks the below occupational health and DBS questions by phone in the first instance followed by email through TRAC.

Occupational Health

- Is the new job similar in nature Tasks/ Location? Yes / No
If the answer is No a further Occ. Health check must be done. (not asked for nurse recruitment)
- Has the candidate moved from a non-clinical to a clinical area? Yes / No
If the answer is Yes a further Occupational Health check must be carried out (not asked for nurse recruitment)
- Has the candidate had an occupational health referral in the last 12months or are you aware of any existing adjustments they have in the workplace? Yes / No
If the answer is Yes - further Occupational Health check done

DBS

What level of DBS is required for the role the candidate is currently in?

Where the level of check is different to the new role a new DBS needs to be carried out or where the candidate is moving from adults to children area and vice versa.

References

- One reference from the employee's current manager where the hiring manager is not the same as the current line manager

- Have a break of minimum 2wks including two Sundays
- Must be 16hrs or less per week in first month employment
- Can only come back on up to 12 months FTC (This is a local trust policy VAPs longer than 12months will be assessed on a case by case basis)

The applicant will need to complete a model declaration form and if it is a qualified post the recruitment team will check the professional registration against the relevant register.

The recruitment team will contact the hiring manager within 24hours of offer to ask occupational health and DBS questions

(Enhanced without POCA/ Enhanced with POCA or standard)

Agency Appointments

The Trust will only use agencies within the Buying Framework to employ temporary staff as these organisations have met the standards required for recruitment and placement of staff. Any exceptions to this should be agreed by the Chief Executive. If an agency no longer complies with the Framework, the Trust will cease to use the agency. Details of the agencies covered by the Framework can be found from the Trust Supplies Department.

The hiring manager must send an e-mail to the agency making it clear what is required for the position, which details:

- The post and location
- The contracted period and working hours
- DBS requirement
- Qualifications and skills
- Banding and pay point
- Work health assessment clearance

It is the responsibility of the Hiring Manager to ensure a completed Assignment Checklist (Appendix 5) is completed which needs to be checked for accuracy.

INTERVIEWS

A minimum of two people should sit on interview panels. It is essential that the same selection panel should both short list and interview candidates. All panel members should be involved in the shortlisting process and should have received equal opportunity and Recruitment and Selection training. For senior appointments above Agenda for Change Band 7, advice should be sought from the HR Directorate about selection techniques and the composition of the interview panel.

Recruitment Selection interview training is provided by the Recruitment Team and Healthcare Careers and Skills Academy quarterly.

Where staff have direct and unsupervised contact with children the candidates attitude toward children and young people in general should be tested and also their commitment to safeguarding and promoting the welfare of children in particular.

The following areas should be explored where possible with applicant in the interviews:

- Their motivation and reasons for working with children,
- Their attitudes and behaviour about control and punishment,
- Their perceptions about the boundaries of acceptable behaviour towards children,
- Their ability to use and maintain professional relationships and their understanding of safeguarding children.
