Dear

I am writing to acknowledge receipt of your email dated 18th May 2021 requesting information under the Freedom of Information Act (2000) regarding Stafford Covid deaths.

***The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.***

***However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.***

***We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.***

***The Information Commissioners Office has recognised the current situation in the NHS***

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in your questions is not held centrally, but may be recorded in individual health/death records. In order to confirm whether this information is held we would therefore have to individually access all individual health/death records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all individual health/death records and then extracting relevant information would take longer than the 18 hours allowed for. In addition to the section 12 exemption the Trust is also applying section 14 (1) exemption: *oppressive burden on the authority*

As of 1<sup>st</sup> November 2014 University Hospitals of North Midlands NHS Trust (UHM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

**Q1 I would like the following information for Stafford County Hospital only. The information I held by the Trust and shall be provided as it has been by all other NHS Trusts up and down the country.**

**1. How many people have died in Stafford County Hospital of COVID-19 as the causal factor between March 2020 and April 2021? (Died of meaning no underlying conditions or other recorded causes)**

A1 We do not record this information as 2 separate hospitals; the requirement was to report Covid deaths as UHNM. The details of cause of death are not recorded separately nor is held on our databases, we would have to do a manual review the death certificate to ascertain this information = section 12 exemption as detailed above, however note:

We are counting COVID-19 deaths as per the national guidance. The figure, and a description of the definition we are using, are published daily and can be found via the link below:

<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-daily-deaths/>

The link to the Trust level data is available in the daily spread sheet in the section titled 'COVID-19 all announced deaths'.

NHS England has the following below:

**Q2 How many people have died in Stafford County Hospital of COVID-19 but with other underlying conditions between March 2020 and April 2021?**

A2 As answer 1
