Dear

I am writing in response to your letter dated 19th January 2021 (received into our office 28th January 2021) requesting information under the Freedom of Information Act (2000) regarding Covid-19.

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in your question is not held centrally, but may be recorded in Individual health records. In order to confirm whether this information is held we would therefore have to individually access all Individual health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all Individual health records and then extracting relevant information would take longer than the 18 hours allowed for. In addition to the section 12 exemption the Trust is also applying section 14 (1) exemption: *oppressive burden on the authority*

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 How many people have died at the Royal Stoke Hospital for Covid-19 alone? Online statistics show us deaths that occurred with 28 days of a positive Covid test, and now increased to 60 days. But this means that they could have in fact died from many other caused.

I just want to know the exact figure from 1st February 2020 until 30th December 2020 of people that have died due to Covid -19 and not anything else

A1 Section 12 exemption as detailed above,
