Dear

I am writing to acknowledge receipt of your email dated 3rd May 2021 requesting information under the Freedom of Information Act (2000) regarding the training of surgeons in all hospitals under your jurisdiction.

The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.

However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.

We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.

The Information Commissioners Office has recognised the current situation in the NHS

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 I am writing to request the following information under the Freedom of Information Act 2000, regarding the training of surgeons in all hospitals under your jurisdiction.

How many surgeons have been offered training following a serious incident in the years?

- 2018
- 2019
- 2020
- 2021 (so far)? Please provide a breakdown by year.

For each of these, please provide a description of the incident and the training offered.

A1 We do not formally record whether Consultants are retrained following serious incidents. There are actions that state Consultant undergone reflection / supervision but we do not record formal training.

Q2 How many surgeons have failed revalidation in the years?

- 2018,
- 2019,
- 2020,
- and 2021 (so far)? Please provide a breakdown by year.

For each case where a surgeon has failed their revalidation process, please include details of what led to the failure.

Please include locum or agency staff if you hold information on them.

By 'serious incident', I am referring to the definition and description of a serious incident outlined in the NHS England Serious Incident Framework.

A2 UHNM does not recognise this as a legitimate question. Revalidation is not a pass/fail exercise, there are only 3 possible recommendations an RO can make i.e. a positive recommendation, a deferral, and a concern over non-engagement. We do not recognise the concept of having failed it in the context of it being a test.

*Please note that any individuals identified do not give consent for their personal data to be processed for the purposes of direct marketing.

UHNM NHS Trust is a public sector body and governed by EU law. FOI requestors should note that any new Trust requirements over the EU threshold will be subject to these regulations and will be advertised for open competition accordingly.
