Dear

I am writing to acknowledge receipt of your email dated 18th August 2022 requesting information under the Freedom of Information Act (2000) regarding Microsoft 11.

The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.

However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.

We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.

The Information Commissioners Office has recognised the current situation in the NHS.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 I am writing to request information relating to your organisation's computers (desktop and laptop).

In 2025, Microsoft is set to end security support for the Windows 10 operating system. Replacement OS Windows 11 has much higher hardware requirements, which will leave many computers unable to run it safely.

So, I would like to request information on the number of desktop and laptop organisations currently in use at your organisation that meet these requirements. I am specifically interested in finding out how many computers do not have processors approved for the new OS. I have attached a list of approved processors.

Please could you provide the following information?

- 1) How many computers (desktop or laptop) are currently owned by and in use at your organisation?
- 2) How many of these do not have a Windows 11-approved processor (as determined by the attached list)?

This information should be held by your IT department or the procurement team.

You can also check whether a computer uses an approved processor by running Microsoft's PC Health Check app, available here: <https://www.microsoft.com/en-gb/windows/windows-11#phealthcheck>

Each device itself should not need checking, as organisations will likely have bought them in large batches of the same model.

This letter confirms the completion of this request. A log of this request and a copy of this letter will be held by the Trust.

If you have any queries related to the response provided please in the first instance contact my office.

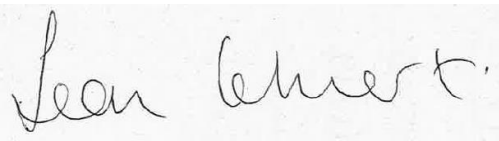

Should you have a complaint about the response or the handling of your request, please also contact my office to request a review of this. If having exhausted the Trust's FOIA complaints process you are still not satisfied, you are entitled to approach the Information Commissioner's Office (ICO) and request an assessment of the manner in which the Trust has managed your request.

The Information Commissioner may be contacted at:

Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF or via www.ico.org.uk.

If following review of the responses I can be of any further assistance please contact my secretary on 01782 671612.

Yours,

Jean Lehnert
