Dear

I am writing in response to your email dated 31<sup>st</sup> January 2020 requesting information under the Freedom of Information Act (2000) regarding straight to test.

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in question 3 is not held centrally, but may be recorded in individual health records. In order to confirm whether this information is held we would therefore have to individually access all in individual health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all in individual health records and then extracting relevant information would take longer than the 18 hours allowed for.

In addition to the section 12 exemption the Trust is also applying section 14 (1) exemption: *oppressive burden on the authority*

Under section 16 of the FOI Act we are required to provide requestors with advice and assistance where possible. We would therefore like to advise you that if your request is shortened to just the questions that we are able to comply within the 18 hour time frame. In order to avoid delay to your response we have provided this below.

As of 1<sup>st</sup> November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

**Q1 Do you have any 'straight-to-test pathways' for suspected cancer referrals and if so what specialities do these apply to, eg, gastroenterology?**

A1 At UHNM we have Upper GI 2ww referral pathway

**Q2 By year, how many patients have been assessed via a straight-to-test pathway over the past three years (or the years within that period the system has been in place)?**

A2 All Upper GI 2ww referrals (around 8400 patients over the 3 year period 1<sup>st</sup> January 2017 to 31<sup>st</sup> December 2019) receive a clinical triage and 90% of these will then go straight to a gastroscopy.

**Q3 What proportion of these patients were discharged back to the GP after tests?**

A3 Section 12 and 14 exemptions as detailed above.

\*Please note that any individuals identified do not give consent for their personal data to be processed for the purposes of direct marketing.

***UHNM NHS Trust is a public sector body and governed by EU law. FOI requestors should note that any new Trust requirements over the EU threshold will be subject to these regulations and will be advertised for open competition accordingly.***
