Dear

I am writing to acknowledge receipt of your email dated 10th February 2022 requesting information under the Freedom of Information Act (2000) regarding Disorders of Sex Development in Children

The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.

However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.

We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.

The Information Commissioners Office has recognised the current situation in the NHS.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 We seek information about the evaluation and care given to those with Disorders of Sex Development. In particular, we would like to know more about the number of international referral requests received by your trust from Malta.

We have put together a list of questions, which we would be grateful if you could answer in this order:

1) Since 2015, how many children receiving diagnostic tests and/or treatment for DSDs have been referred to this Trust from Malta?

A1 Information not held, as not a service we offer at UHNM

Q2 Of these children, how many are government-sponsored patients? How many pay privately?

A2 Information not held, as not a service we offer at UHNM

Q3 Of these referrals, how many have undergone genital surgeries?

Q4 Which specific DSDs have been referred from Malta? (e.g. Congenital Adrenal Hyperplasia, Androgen Insensitivity Syndrome, Turners Syndrome). If possible, please list them.
