Dear

I am writing in response to your email dated 14th February 2020 requesting information under the Freedom of Information Act (2000) regarding cutaneous squamous cell carcinoma.

On 27th February 2020 we emailed you as UHNM has received several requests that are asking for similar information that are from the same person/company, therefore we were contacting you to inform you that under section 12 of the FOI Act we were aggregating these requests on:

- Cutaneous squamous cell carcinoma (previous ref 673-1920)
- Prescribing in Ophthalmology (previous Ref 688-1920)

Your new reference number is **689-1920**

The section 12 exemption states:

The authority can combine related requests received within a period of 60 consecutive days from:

- **The same person or**
- **People who appear to be acting in concert or in pursuance of a campaign.**

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in question 3 (previous request reference 688-1920) and FOI previous reference 673-1920 all of your questions are not held centrally, but may be recorded in individual health records. In order to confirm whether this information is held we would therefore have to individually access all individual health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all individual health records and then extracting relevant information would take longer than the 18 hours allowed for.

In addition to the section 12 exemption the Trust is also applying section 14 (1) exemption: *oppressive burden on the authority*

Under section 16 of the FOI Act we are required to provide requestors with advice and assistance where possible. We would therefore like to advise you that if your request is shortened to just the

questions that we are able to comply within the 18 hour time frame. In order to avoid delay to your response we have provided this below.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.
