Dear

I am writing in response to your email dated 13th April 2021 requesting information under the Freedom of Information Act (2000) regarding Cyber Security.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 I am currently embarking on a research project around Cyber Security and was hoping you could provide me with some contract information relating to following information:

- 1. Standard Firewall (Network) - Firewall service protects your corporate Network from unauthorised access and other Internet security threats**
- 2. Anti-virus Software Application - Anti-virus software is a program or set of programs that are designed to prevent, search for, detect, and remove software viruses, and other malicious software like worms, Trojans, adware, and more.**
- 3. Microsoft Enterprise Agreement - is a volume licensing package offered by Microsoft.**

The information I require is around the procurement side and we do not require any specifics (serial numbers, models, location) that could bring threat/harm to the organisation.

For each of the different types of cyber security services can you please provide me with?

- 1. Who is the existing supplier for this contract?**

A1 UHNM answered your identical request in full on 30th November 2021(FOI reference 229-2021a), therefore we are only providing updates where necessary, the remaining questions are exemption under section 21: *information reasonably accessible by other means*. – supplied to you and because the information is available via the Trust's public website at the following link: (October 2020-21)
