Dear

I am writing in response to your email dated 17<sup>th</sup> March 2020 requesting information under the Freedom of Information Act (2000) regarding screening and treatment of iron deficiency.

On 23<sup>rd</sup> March 2020 we contacted you via email with the following statement:

**The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.**

**However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.**

**We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.**

**The Information Commissioners Office has recognised the current situation in the NHS.**

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in your questions is not held centrally, but may be recorded in individual health records. In order to confirm whether this information is held we would therefore have to individually access all individual health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all individual health records and then extracting relevant information would take longer than the 18 hours allowed for.

In addition to the section 12 exemption the Trust is also applying section 14 (1) exemption: *oppressive burden on the authority*

As of 1<sup>st</sup> November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

- Q1 In the last 12 months available data, how many patients listed for major elective blood loss surgery were screened 6 weeks prior to the procedure for iron deficiency anaemia?**
- A1 Section 12/14 exemptions as detailed above
- Q2 How many patients were not?**
- A2 As answer 1
- Q3 Of the patients who were screened and anaemia was present had serum ferritin levels tested?**
- A3 As answer 1
- Q4 Of those patients diagnosed with iron-deficiency anaemia, how many were offered appropriate iron treatment?**
- A4 As answer 1
- Q5 If at all possible, could you provide a break down for each answer by what CCG the patients came from?**
- A5 As answer 1
