Dear

I am writing in response to your email dated 30th July 2020 requesting information under the Freedom of Information Act (2000) regarding Welsh Covid-19 patients

On our acknowledgment we added the following statement:

The University Hospitals of North Midlands Trust is committed to the Freedom of Information Act 2000.

However, the NHS is facing unprecedented challenges relating to the coronavirus (COVID-19) pandemic at the current time. Understandably, our resources have been diverted to support our front-line colleagues who are working tremendously hard to provide care for our patients, and to those in need of our services.

We strive to be transparent and to work with an open culture. But at this time, whilst care of our patients and the safety of our staff takes precedent, it is likely that responses to some requests for information will be delayed. We apologise for this position in advance, and will endeavour to provide you with as much information as we can, as soon as we are able.

The Information Commissioners Office has recognised the current situation in the NHS.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 Could you please disclose, preferably by PDF if you are using any attachment, the number of patients currently at Royal Stoke Hospital with coronavirus (SARS-CoV-2) (positive test regardless of whether or not the test was taken at the Hospital) who have been brought to the Hospital from Wales.

How many of these patients are in intensive care?

A1 There are currently no patients with coronavirus (SARS-CoV-2) (positive test regardless of whether or not the test was taken at the Hospital) who have been brought to the Hospital from Wales at Royal Stoke Hospital.
